Medical Center®**

Outreach Services

Banner Health is committed to providing health care services throughout northeastern Colorado, Wyoming and Nebraska.

With more than 1,600 specialty clinics located throughout the region, tele-health capabilities, and established physician and hospital relationships, we are working together to provide medical excellence, provided by the best people, delivering the best care.

Services

The following specialty clinics are offered by Outreach Services at various locations in Colorado, Wyoming and Nebraska:

- Allergy/Immunology
- Cardiology
- Dermatology
- Gastroenterology
- General Surgery
- Hematology/Oncology
- Nephrology
- Neurology
- OB/GYN
- Ophthalmology
- Orthopedic Surgery
- Otolaryngology
- Pathology
- Podiatry
- Pulmonary Medicine
- Radiology

- Rheumatology
- Urology

Tele-Health

Tele-Health is the use of tele-communications for the exchange of information in health care. North Colorado Medical Center uses many technological tools to bridge communication between urban and rural medical facilities. Telephone, digital imaging and video conferencing are just three ways urban specialists provide consultations, education, and training to health care providers in rural communities.
