

## **About our Program**

The Banner Thunderbird Behavioral Health Center has provided psychiatric and chemical dependency services to the community since 1985. Our facility, located on the Banner Thunderbird Medical Center campus, will ultimately include 44 acute care inpatient beds and intensive outpatient services.

Licensed psychiatrists, physicians, psychiatric nurses and qualified psychiatric technicians, certified recreational therapists, and Master's-level licensed therapists work as a team to address the medical and psychological needs of the clients. We meet the challenges of the ever changing health care environment with dedication and confidence. We provide 24 hours of coverage seven days a week.

As part of Banner Health, one of the country's most comprehensive health care providers, Banner Thunderbird is committed to the system's values of "People Above All ...by treating those we serve and each other with compassion, dignity and respect; Excellence ...by acting with integrity and striving for the highest quality care and service; and Results ... by exceeding the expectations of the people we serve, as well as the expectations we set for ourselves."

Our goal is to consistently exceed the expectations and level of service clients and family members expect. Banner Thunderbird embraces the philosophy of supporting and nurturing healing on all levels: physical, mental, emotional and spiritual. Banner Thunderbird is accredited by the Joint Commission on Accreditation of Healthcare Organizations.
