# North Colorado Medical Center®

## 2010 Fact Sheet

North Colorado Medical Center is a fully accredited, private, not-for-profit facility licensed to operate 398 beds. It serves as a regional medical center with community-based and specialty services in a service area including southern Wyoming, western Nebraska, western Kansas, and northeastern Colorado. Located in Greeley (CO), 50 miles north of Denver and 50 miles east of Rocky Mountain National Park, NCMC has grown to become one of the largest service providers in the region. The growth has included expansion of facilities and services. The CardioVascular Institute of North Colorado with a comprehensive cardiovascular program including open heart surgery; Monfort Family Birth Center with a Level II neonatal intensive care unit; North Colorado Med Evac emergency helicopter transport; Western States Burn Center; comprehensive Cancer Institute; Level II trauma-designated Emergency Department; and ortho/neuroscience services are among the many exceptional services offered through the medical center.

North Colorado Medical Center has achieved Magnet™ recognition for excellence in nursing; designation as a Bariatric Surgery Center of Excellence and was named a Thomson 100 Top Hospitals Cardiovascular 2007.
