

## Banner Baywood Medical Center

6644 E. Baywood Avenue  
Mesa, Arizona 85206  
(480) 321-2000

### Orthopedic Services

Banner Baywood Medical Center is dedicated to providing innovative, compassionate orthopedic services tailored to meet the individual needs of its patients.

The field of orthopedic medicine encompasses all aspects of the musculoskeletal system, and Banner Baywood treats an array of orthopedic conditions ranging from sports-related and emergency injuries to arthritics, congenital and degenerative conditions affecting the bones, joints, muscles, ligaments, tendons and cartilage.

Banner Baywood Medical Center boasts one of the nation's premier orthopedic programs and is well-known for joint replacement procedures.

Performing thousands of orthopedic surgeries each year, Banner Baywood continues to make a difference in people's lives through excellent patient care.

#### Diagnosis

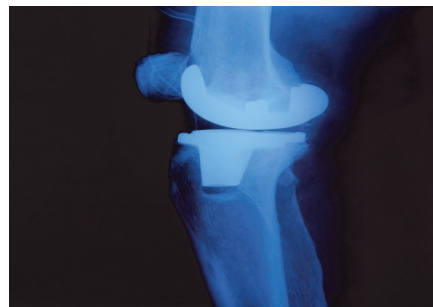

Orthopedic medicine encompasses the entire musculoskeletal system, and there are countless conditions for which patients seek orthopedic care.

Common orthopedic conditions treated at Banner Baywood include:

- Arthritic Conditions
- Back, Neck and Spine Conditions
- Carpal Tunnel Syndrome
- Congenital Deformities (conditions present at birth)
- Degenerative Joint Conditions
- Fractures
- Hand and Foot Conditions
- Ligament injuries

We utilize a number of diagnostic procedures and imaging technologies to identify and evaluate orthopedic conditions, including:

- Arthrography
- Computerized Tomography (CT)
- Ergonomic Assessments
- Functional Capacity Evaluations
- Magnetic Resonance Imaging (MRI)
- Myelography
- Ultrasound

### Treatment Options

Patients receiving orthopedic care at Banner Baywood Medical Center can be confident that they are getting the most current and specialized treatments available. A multidisciplinary team of experts work together to present each patient with an individualized treatment plan.

Following is a list of common orthopedic procedures performed at Banner Baywood:

- Arthroscopic Surgery
- Hip, Joint, Knee and Rotator Cuff/Shoulder replacements
- Sports-related procedures including ACL (Anterior Cruciate Ligament) repair

### Support & Education

We understand the importance of a strong support system, and provide support and education resources to help orthopedic patients feel confident that they are receiving excellent patient care.

To ensure patients are comfortable with both their diagnosis and proposed treatment, the hospital offers a complimentary joint replacement class for orthopedic patients. This class covers information pertaining to the surgical and hospitalization processes, recovery and follow up therapy. The class is offered several times each month. Please call (602) 230-CARE to register.

### Orthopedic Program

The Orthopedic Program at Banner Baywood Medical Center involves a 28-bed unit dedicated to treating joint injuries and diseases through joint replacement surgery.

While total hip and knee replacements account for the majority of procedures performed, nearly two-thirds of its patients are able to leave the hospital and return home immediately following surgery.

The program's joint classes thoroughly educates patients on the treatment and recovery process to ensure a seamless transition home.
