The Outpatient Neuro Rehabilitation program at Banner Desert Medical Center offers more than 80 years combined experience covering a wide range of expertise.

Our dedicated staff provides patients with land-based and aquatic therapies to help patients recover from physical or cognitive limitations resulting from, but not limited to, the following illnesses:

- Strokes
- Neurological disorders such as Parkinson's, Multiple Sclerosis, Guillain-Barre Syndrome
- Aphasia
- Balance / Vestibular
- Cognitive disorders
- Dysarthria / Apraxia
- Gait disorders
- Head injuries / Traumatic brain injury
- Brain and spinal tumors
- Spinal cord injury / decompression
- Swallowing disorders
- Laryngectomy / TEP

Therapy Team

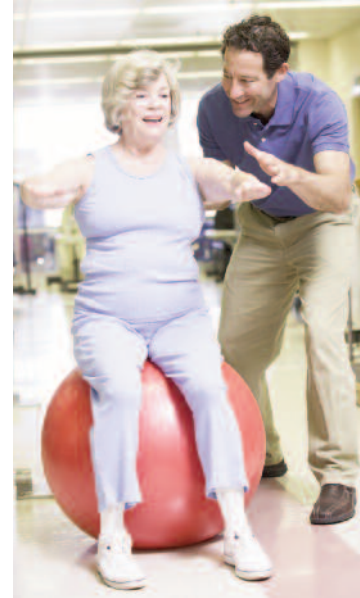

Experienced therapists are available to provide:

- Occupational Therapy
- Physical Therapy
- Speech-Language Pathology
- Aquatic Therapy
- LSVT Big and Loud Therapy

Our Speech Therapy team also offers testing and/or treatment through:

- MBS studies
- FEES
- Vital Stim

Our specialized equipment includes a Nintendo Wii video game system, the LiteGait walking support system, pre-driving software and Brain Train software.

Location

Outpatient Neuro Rehabilitation is located in the 2225 Building on the northwest corner of the Banner Desert Medical Center campus, 1400 S. Dobson Road, Mesa, AZ 85202.

Hours

We see patients 8 a.m. to 5 p.m., Monday through Friday.

Referrals

A physician referral is required. Most insurances are accepted.

Our Mission: We exist to make a difference in people's lives through excellent patient care.
