Orthopedics

Banner Gateway Medical Center is dedicated to providing innovative, compassionate orthopedic services tailored to meet the individual needs of our patients.

We treat an array of orthopedic conditions ranging from sports-related and emergency injuries to arthritic, congenital and degenerative conditions affecting the bones, joints, muscles, ligaments, tendons and cartilage.

The proven healing environment within this next-generation medical center ensures a safe and comfortable recovery, while our on-site rehabilitation team helps patients reach their highest level of function quickly and safely.

Diagnosis

Orthopedic medicine encompasses the entire musculoskeletal system, and there are countless conditions for which patients seek orthopedic care.

Common orthopedic conditions treated include:

- Arthritic Conditions
- Back, Neck and Spine Conditions
- Carpal Tunnel Syndrome
- Congenital Deformities
- Degenerative Joint Conditions
- Fractures
- Hand and Foot Conditions
- Ligament Injuries

We utilize a number of diagnostic procedures and digital imaging technologies to identify and evaluate orthopedic conditions including:

- Arthrography
- Computerized Tomography (CT)
- Ergonomic Assessments
- Functional Capacity Evaluations
- Magnetic Resonance Imaging (MRI)
- Myelography
- Ultrasound
