

## Toy Closets

### Wish List

When it comes to toys, every child wants something different. At Banner Health, we stock our toy closets with age-appropriate toys that would appeal to the largest group possible. Below are a few items that would make great donations for our pediatric patients:

#### Infants

Teething toys  
Musical toys  
Teddy bears

#### Toddlers

Pop-up books  
Light-up toys  
Jumbo crayons with coloring book

#### School-Age Children

Matchbox cars  
Board games  
Arts and Crafts

#### Teens

Video games  
Journals  
Disposable cameras

Cardon Children's Medical Center provides family-centered, comprehensive medical care for children. Part of that care includes nurturing our young patients during what can sometimes be a stressful time in their lives.

All of our facilities that offer pediatric services provide toys for patients undergoing treatment. Our many toy closets and carts bring smiles to the faces of thousands of children by allowing them to choose their own toy to keep. Trips to the toy closet may follow a painful procedure or scary treatment, or when a child just needs a little boost.

We are constantly looking for ways to keep our closets full. We partner with many individuals and organizations to help stock the shelves with new, unwrapped toys, books and games. It is crucial that the toys be brand new to decrease the risk of infection in our facilities.

To learn more about how you can support our toy closet program, call Child Life Senior Manager Sue Eaton at (480) 412-8158.
