

Pediatric Asthma Education and Management

More Information Available Online

Cardon Children's Medical Center offers parents, teens and children a full database of information on asthma education and management at www.BannerHealth.com, keyword: Banner Kids.

Visit a web site you can trust for complete answers from qualified physicians and specialists. Banner Kids also offers asthma information written specifically for teens and children, answering questions in terms they can understand.

The Pediatric Asthma Education and Management Program at Cardon Children's Medical Center promotes self-management skills for patients and their families to decrease symptoms and school absenteeism while promoting an improved quality of life.

Our medical staff and certified asthma educators provide services that focus on:

- Pathology
- Triggers
- Medications
- Symptom Recognition
- Home Management Plans

A Team of Experts

Our multidisciplinary asthma model includes care by credentialed specialists including:

- Nurses
- Physicians
- Respiratory Therapists
- Social Workers/Case Workers
- Child Life Specialists
- Pharmacists

The team works collaboratively to offer the best care for the unique needs of each patient and their family. Their focus is not just on the disease but the treatment plan that helps each child assume as normal a life as possible.

Asthma and Swimming

The pediatric asthma education program partners with Swim Kids USA for Asthma Attackers, a program that provides swim lessons and water exercises to increase lung function and lung health through exercise.

Asthma and Food Allergies

In partnership with the Phoenix Allergy Network, a food allergy support group, and the American Lung Association, Cardon Children's sends patients and medical staff to Camp Not A Wheeze in Prescott, Ariz.
