Comfort Care

At Banner Hospice we understand the urgency to control pain and other symptoms when a cure is no longer an option.

A clinical team approach strives to ensure quality of life for our patients during their last precious months and days. Hospice is not a place people go; it is a *philosophy of comfort care*.

In fact most patients choose to receive hospice care in the comfort of their own home. We encourage patients to be part of the decision process, create final memories with loved ones, and find spiritual peace. Banner Hospice also works closely with family members and friends during hospice care, bereavement counseling, and grief support. We even have a unique program designed especially for bereaved children. Our bereavement and grief support groups are free to the public and we encourage the community to participate in these life changing programs.

We are available 24 hours a day, 7 days a week.

When the time comes to consider hospice care please call us **(480) 497-5535**.
