Banner Boswell Rehabilitation Center

Honoring Norbert and Sonia Grove

The Banner Boswell Rehabilitation Center is designed to help individuals retrain the mind, as well as the muscles, through a comprehensive and personalized rehabilitation program. The center, conveniently located on the Banner Boswell Medical Center campus in Sun City, provides 44 beds for acute rehabilitation and 71 beds for sub-acute skilled care.

Individuals benefit from an interdisciplinary health care team which includes a rehabilitation physician, rehabilitation nurses, social services staff, occupational and physical therapists, and speech-language pathologists. Our specialized team works with individuals and their families to develop encompassing treatment plans to include short- and long-term goals. Families are encouraged to participate in the individual's rehabilitation program once the treatment plan has been determined. The center offers a wide range of common environments to regain the ability to perform everyday tasks in new ways.

Individual treatment plans may include services such as group therapy—which includes cooking classes, community outings, and various physical, occupational and recreational therapies—support groups, and team conferences between physicians and the rehabilitation team to discuss progress and update goals.

Banner Boswell Rehabilitation Center is located at 10601 W. Santa Fe Dr., Sun City, AZ 85351. Please call us at (623) 974-7000 for more information or to schedule a tour.

When you or a loved one require additional care following a traumatic injury, a serious illness, or complex surgery, the Banner Boswell Rehabilitation Center team will be there to help overcome physical limitations and regain independence.

About Banner Boswell Medical Center

Banner Boswell is a 430-bed, acute-care hospital located in Sun City, Arizona. Founded in 1970, Banner Boswell offers heart services, cancer care, orthopedics, neurosciences, women's diagnostics, emergency care, and medical and surgical services. Banner Boswell is part of nonprofit Banner Health, the leading provider of health services in the Valley with 22 hospitals throughout the West.
