Talk to the Experts

Our highly skilled staff, utilize the most up-to-date approaches in wound care. NCMC has made a major commitment to this specialized area of care. When you are seen in the Center, you will have an assessment of your wound as well as an extensive evaluation of your medical background. We are healing wounds that others thought hopeless. The Center will develop an

individualized treatment plan and coordinate your care.

What sets us apart from other Wound Centers?

Our multidisciplinary team includes:

- Certified Wound Care Registered nurses and Certified nursing assistants
- A Nutritional specialist providing assessment and counseling
- Pharmacists and social workers
- Two Research nurses
- A diabetes education specialist
- An occupational and physical therapist
- Our Center is under the direction of a physician who is Certified in hyperbaric medicine and Board-Certified in Surgery and Critical Care
- Research innovation to develop devices and new techniques
