Community Benefit Profile

- Charity care (at cost) - \$84 million
- Unpaid cost of public programs, Medicaid and other indigent care programs - \$306 million
- Health professional education (includes training 300 physicians per year) - \$26.3 million
- Community health services - \$7.3 million
- Research activities - \$11 million
- Total cost of the community benefit and the unpaid cost of Medicare - \$535 million
- Additionally, the Banner Health Poison and Drug Center hotline saves the community \$30 million annually in emergency center costs
- Banner Olive Branch Senior Center annually provides more than 70,000 meals for seniors, children and homeless families

Financial programs for our patients

Banner Health offers a Financial Assistance Program that is thoroughly and respectfully designed to assist those able to pay a moderate portion of the costs of their care (Basic Financial Assistance Program) and for those able to pay a small portion of the cost of their care or who are without the ability to pay (Enhanced Assistance Program). We preserve the dignity of each individual regardless of race, creed, sex, age, social status or ability to pay for services rendered. Our facilities are operated in a cost-effective and financially responsible manner to ensure that all who turn to Banner Health received the excellent patient care they deserve regardless of their ability to pay.

High-quality and coordinated patient experience

Unquestionably, a superior patient experience is grounded in high quality clinical programs such as cancer, heart care and pediatrics. It also takes innovation in technology and new ways of thinking.

Our Banner Medical Group is expanding to bring primary care and selected specialties into communities close and convenient to where people live. The Banner Health Network is a comprehensive and highly coordinated network of providers in Maricopa County and throughout Pinal County in Arizona. More than 3,000 physicians work collaboratively in the network with each other and all other providers to ensure a highly coordinated patient care experience.
