

FAQs

Frequently Asked Questions

May I volunteer at the BUMC Medical facility of my choice?

- Yes, volunteer opportunities are available at all of our Tucson campuses: Main, North, South, Diamond Children's center and the Arizona Center for Cancer Care. Additional opportunities are available in several of our clinics, as well.

What types of volunteer opportunities are available at BUMC?

- BUMC volunteer opportunities include: Clerical Support, Emergency Rooms, Floor Support (at various hospital and clinic departments), Information Desks/Concierge, Libraries/Reading Programs, Pediatrics, Pet Therapy, Retail/Gift Shops, Sleep Labs, Spiritual Care, Surgery Waiting Rooms, Tutoring, and MORE. BUMC also utilizes volunteer support for single-day events and single-day or long-term projects.

Is court-mandated community service available through Banner University Medical Center (BUMC) Volunteer Resources?

- The Volunteer Resources Department is unable to provide court-ordered community service.

Does the Volunteer Resources Department provide observation, shadowing or internship opportunities?

- The Volunteer Resources Department does not currently oversee this experience. However, we are able to provide you with Banner's most current policy. For more information, please e-mail us at BUMCVolunteer@bannerhealth.com.

Where can I find my health records?

- You can request health documentation through your physician, educational institution (college, high school, etc.), State Department of Health, or County Health Department.

Can the Volunteer Resources Department give me a copy of my background check?

- The Volunteer Resources Department is unable to provide a copy or results of background checks. Please contact the background reporting company to request a copy of your results.

Can the Volunteer Resources Department give me a copy of my health records or send them to other departments?

- Unfortunately, Volunteer Resources is unable to keep health records on file. Please contact Employee Health to request health documentation.
