

Door-to-Doc (D2D) Cuts ED Patient 'Walkout' Rate in Half!

Hospitals - LWOT Percentage Pre/post New Process Implementation

- Prior to Door-to-Doc (D2D), up to 1 in every 7 ED patients left without treatment (LWOT).
- LWOT rate highly correlated with D2D (correlation coefficient =0.96).
- Results are up to a 65% improvement in patient access to care.
- Patients served increased by more than 12,000.
