2. Banner Reporters who contact the ComplyLine may request anonymity, and, if requested, anonymity will be maintained to the extent possible and in accordance with applicable laws.
3. Banner Reporters may report Potential Compliance Issues in good faith without fear of retribution or retaliation. See [Prohibition Against Retaliation for Protected Activities](#) .

B. Assigning ComplyLine Cases

1. The Ethics & Compliance Department will initially receive all ComplyLine case reports from Navex Global.
 - a. The Ethics & Compliance Department will review each ComplyLine case report and will assign investigative responsibility based on the type of issue addressed in the report. See **Appendix A**. If a ComplyLine case report involves more than one type of issue, the Ethics & Compliance Department may assign investigative responsibility to more than one individual and/or department. These individuals or departments will coordinate their investigations to minimize redundancies in interviews and document requests to the extent possible.
 - i. Example: A Banner employee contacts the ComplyLine to report that a coworker is falsifying documentation in patient's medical records and harassing other employees who have asked him to stop. The Ethics & Compliance Department will investigate the documentation issue and the Human Resources Department will investigate the harassment issue.

C. Investigating ComplyLine Cases

1. The assigned investigator(s) will investigate the ComplyLine case and will involve other departments and/or individuals as needed.
 - a. The investigation may include obtaining documents, conducting interviews, and/or performing other activities as appropriate.  - b. If an investigation reveals that the ComplyLine case may be a potential Reportable Event, the investigator(s) will immediately contact the Ethics & Compliance Department in accordance with the policy entitled [Compliance: Reporting and Investigating Potential Compliance Issues](#).

- c. Investigations of ComplyLine cases will be completed as soon as reasonably possible, but the time spent on each investigation may vary depending on the nature and complexity of the issue(s). Investigations will generally be completed within six (6) months of receipt of credible information about a potential Overpayment, except in extraordinary circumstances.
2. Once an investigation is completed, the investigator(s) will, if necessary, work with appropriate departments to implement.
 - a. A CAP may include creating/revising a policy and procedure, providing specialized or remedial education, conducting monitoring activities, repaying Overpayments, and/or implementing corrective (disciplinary) action.
 - b. The Ethics & Compliance Department will report and return any Overpayments to Federal Health Care Programs no later than sixty (60) days after their identification in accordance with the Compliance: 60-Day Report/Repay Overpayments policy.
3. The investigator(s) will maintain an electronic and/or paper investigative file for each ComplyLine case, which includes, at a minimum, a description of the issue(s), investigative notes, and any actions taken as a result of the investigation (such as a CAP).
