An "approved" postgraduate training program is one fully accredited throughout the time of the practitioner's training by the Accreditation Council for Graduate Medical Education (ACGME), by the American Osteopathic Association, by the Commission on Dental Accreditation, by the American Board of Podiatric Surgery, by the Council on Podiatric Medical Education of the American Podiatric Medical Association, by the American Psychological Association, or by a successor agency to any of the foregoing, or a program equivalent to one accredited by the ACGME.

3.1-3 BOARD CERTIFICATION

- (a) Board certified or qualified for Board certification. Where membership and privileges are granted on the basis of Board qualification, certification must be obtained within five years of completion of training. Failure to become certified within the time allowed under these Bylaws, or failure to pass the Board certification exam on the third attempt shall result in the voluntary, automatic relinquishment of Medical Staff membership and privileges.

For purposes of this section, "Board certification" or "Board certified" means certified by a board approved by the American Board of Medical Specialties, the Advisory Board for Osteopathic Specialists, the Royal College of Physicians and Surgeons of Canada, the American Board of Podiatric Surgery or the American Board of Podiatric Orthopedics and Primary Podiatric Medicine, the American Dental Association or the American Board of Professional Psychologists or by a board determined by the department and Executive Committee to be equivalent. Where the board requires a period of practice prior to submitting an application for certification, the applicant will be deemed qualified during this time

- (b) Exceptions to board eligibility/certification/recertification may be granted in the following circumstances:

 - b. where a particular field or specialty of the department does not have a Board certification:
 - c. where the applicant's privileges are limited to surgical assisting or referring only.
 - d. to applicants/members where there is a shortage of qualified Medical Staff members in the practitioner's specialty necessary to meet the Medical Center's demand for services where the Medical Executive Committee has determined that the practitioner's training and experience approximates as nearly as possible those assured by Board certification.
 - e. where a practitioner has obtained a level of training experience and expertise commensurate with board certification through an alternative pathway that does not offer board certification. (Examples would include training through a foreign training program.) 75% of the Medical Executive Committee must recommend approval of the exception.

Members are required to remain board certified. Failure to become recertified within three years from the expiration of original board certification or recertification shall result in the voluntary, automatic relinquishment of Medical Staff membership and privileges.

- (c) Extensions to achieving board certification may be considered in the following circumstances as determined by the Medical Executive Committee:
 - a. a practitioner has taken the exam, and is awaiting results or has exam scheduled and provides evidence of this; or
 - b. a practitioner has submitted evidence of extraordinary circumstances, including a particular medical, physical, family, or financial hardship in which they were unable to become certified or recertified within the required time frame. In this instance, the practitioner must sit for the next available board exam to become certified or recertified.
 - c. the appropriate American Board, of Medical Specialties (ABMS), the American Osteopathic Board (AOA), the Royal College of Physicians and Surgeons of Canada, the American Board of Podiatric Surgery or the American Board of Podiatric Orthopedics and Primary Podiatric Medicine, the American Dental Association or the American Board of Professional Psychologists allows for a longer period of time within which to become certified.

Such Agreements may only be entered into after a determination that expected improvements to the quality of care, coverage, cost-efficiency and/or service excellence will outweigh the anticompetitive effect of the Agreement as required by the Board's Physician Exclusive Agreements policy. No reporting is required under federal or state law when privileges or membership is limited because an Exclusive Agreement is entered into, and no such reports shall be made.

3.8-1 REVIEW OF POSITIONS

- (b) The Medical Executive Committee shall give Medical Staff members whose privileges may be adversely affected by the establishment or modification of the Agreement an

opportunity to submit written information to the Medical Executive Committee regarding the impact the establishment of the Agreement would have on the quality of patient care to be provided and/or why the Agreement is not necessary to establish the expected benefits.

- (c) The Medical Executive Committee shall be given an opportunity to report its findings to the CEO before the Exclusive Agreement is entered into or transferred. The report shall be limited to information relating to the impact the Agreement would have on quality of care and whether the Agreement is necessary to establish the expected benefits. The CEO is ultimately responsible for determining, in his/her discretion, whether to enter into the Agreement.
- (d) In the event the Medical Executive Committee disagrees with the decision of the CEO to enter into an exclusive contract, the Medical Executive Committee may request a Joint Conference Committee as set forth in Section 13.5. ARTICLE FIVE: DELINEATION OF PRACTICE PRIVILEGES

5.1 PROCESS FOR CREDENTIALING FOR MEMBERSHIP AND PRIVILEGES

Completed applications for membership and privileges are submitted at the time of initial appointment to the Credentials Committee, Department, and Medical Executive Committee, subject to final approval by the Board. Expedited applications may be submitted directly to the Chairmen of the Credentials Committee and the Department, to the Medical Executive Committee, and to the Board. Completed applications for reappointment are submitted to the Department, and Medical Executive Committee, subject to final approval by the Board. The process for appointment and reappointment to the Medical Staff is set forth in further detail in the Credentialing Procedures Manual.

5.2 PROCESS FOR "DISTANT SITE" CREDENTIALING OF TELEMEDICINE PROVIDERS

For purposes of this section, Distant Site defined as the site where the practitioner providing the telemedicine service is located.

Where the Medical Center has a contract with a Joint Commission accredited facility Distant Site approved by the Medical Executive Committee, the Medical Center will accept the credentialing and privileging decisions of the Distant Site for applicants who provide telemedicine services and are credentialed at the Distant Site. Privileges at the Medical Center shall be identical to those granted at the Distant Site, except for services which the Medical Center does not perform. Privileges shall be granted and renewed for the same period as have been granted by the Distant Site. Board approval of privileges at the Distant Site qualifies as Board approval at the Medical Center.

5.2-1 RIGHTS OF THE PRACTITIONER

Practitioners seeking or who have been granted remote privileges through a Distant Site are not entitled to due process rights under the Fair Hearing Plan if remote privileges are denied or terminated unless such Practitioners' privileges are not limited at the Distant Site.

5.3 PROCESS FOR CREDENTIALING AND PRIVILEGING ALLIED HEALTH PROFESSIONALS

Completed applications for allied health membership for initial appointment and privileges will be submitted to the Credentials Committee, Department and Medical Executive Committee for review and action prior to submission to the Board. Completed applications for reappointment are submitted to the Department and Medical Executive Committee, subject to final approval by the Board. The process for appointment and reappointment to the Allied Health Staff is set forth in further detail in the Allied Health Rules and Regulations.

5.4 EXERCISE OF PRIVILEGES

5.3-1 IN GENERAL

Privileges may not be exercised at the Medical Centers until the practitioner has successfully completed Identity Verification (ID), Banner's CPOE/EMR (Computer Physician Order Entry/Electronic Medical Record) training and orientation. Except in an emergency, a practitioner providing clinical services at the Medical Center may exercise only those clinical privileges specifically granted.

5.3-2 PRIVILEGES IN EMERGENCY SITUATIONS

In case of an emergency in which serious permanent harm or aggravation of injury or disease is imminent, or in which the life of a patient is in immediate danger and any delay in administering treatment could add to that danger, any practitioner is authorized to the degree permitted by the practitioner's license, when better alternative sources of care are not available within the necessary time frame, to do everything possible to save the patient's life or to save the patient from serious harm, regardless of department affiliation, staff category, or privileges. A practitioner providing such emergency services outside the scope of granted privileges is obligated to summon all consultative assistance deemed necessary and to arrange for appropriate follow-up care.

5.3-3 EXPERIMENTAL PROCEDURES

Experimental drugs, procedures, or other therapies or tests (Experimental Procedures) may be performed only after approval of the involved protocols by the Banner Institutional Review Board. Any Experimental Procedure may be performed only after the regular credentialing process has been completed and the privilege to perform or use such procedure has been granted to the practitioner.

5.4 TELEMEDICINE AND TelerADIOLOGY PRIVILEGES

5.4-1 SERVICES

The Medical Executive Committee shall determine which patient care, treatment, and services may be provided by practitioners through a telemedicine link. The clinical

services offered must be consistent with commonly accepted quality standards. Telemedicine and Teleradiology services may also be used in the event of a disaster when the emergency management plan has been activated, and the organization is unable to meet immediate patient needs with resources on hand.

5.4-2 CREDENTIALING

Practitioners providing care, treatment, and services of a patient via telemedicine link are subject to the credentialing and privileging processes of the medical centers.

5.4-3 EVALUATION

The Medical Executive Committee shall continually evaluate the hospital's ability to provide these services safely, and must evaluate the performance of the services by practitioners at reappointment, renewal, or revision of clinical privileges.

5.4-4 RIGHTS OF THE PRACTITIONER

Physicians seeking or who have been granted remote privileges are not entitled to due process rights under the Fair Hearing Plan if remote privileges are denied or terminated unless such action is reportable to the National Practitioner Data Bank or the Arizona Medical Board. A physician who believes he or she was wrongly denied remote privileges or whose remote privileges were terminated or limited may submit information to the Medical Executive Committee demonstrating why the denial, limitation or termination was unwarranted. The Medical Executive Committee, in its sole discretion, shall decide whether to review the submission. The physician has no appeal or other rights in connection with the Executive Committee's decision.

5.5 PROCEDURE FOR DELINEATING PRIVILEGES

5.5-1 REQUESTS

Each application for appointment and reappointment must contain a request for the specific clinical privileges desired by the practitioner. In some instances, staff membership may be granted to a practitioner who desires not to request clinical privileges. Specific requests must also be submitted for modifications of privileges in the interim between reappointment periods. All requests for clinical privileges will be processed in accordance with the procedures set forth in the Credentialing Manual, except that requests submitted after the initial granting of membership shall not require review by the Credentials Committee.

5.5-2 SUPERVISION

Whenever a practitioner requests clinical privileges not previously granted to the practitioner by the Board, the practitioner must arrange for the number and types of cases, if any, to be reviewed or observed as required in the department rules and regulations and privilege criteria, unless a waiver of supervision has been recommended by the department and the Medical Executive Committee and approved by the Board. After the completion of such supervision, the practitioner may be granted unsupervised privileges.

5.6 BASIS FOR PRIVILEGES DETERMINATIONS

Clinical privileges shall be granted in accordance with education and training, experience, utilization practice patterns, current health status, and demonstrated competence and judgment to provide quality and appropriate patient care in an efficient manner as documented and verified in each practitioner's credentials file. Additional factors that may be used in determining privileges include those qualifications set forth in Section 3.1. Where appropriate, review of the records of patients treated in other hospitals or practice settings may also serve as the basis for privileges determination(s). In reappointment determinations, results of quality and performance

improvement and utilization review, peer review, supervised cases (if applicable), and where appropriate, practice at other hospitals will also be considered. In review of requests for changes in privileges, evidence of appropriate training and experience and current clinical competence must be documented.

5.7 PRIVILEGE DECISION NOTIFICATION

The decision to grant, limit or deny an initially requested privilege or an existing privilege petitioned for renewal is communicated to the requesting practitioner within three (3) weeks of the Board's action. In case of privilege denial, the application is informed of the reason for denial. The decision to grant, deny, revise or revoke privilege(s) is disseminated and made available to all appropriate internal and/or external persons or entities.

5.8 PRIVILEGES FOR NEW PROCEDURES

Departments will consider new technologies and procedures to determine whether the privilege to use such technologies or perform such procedures is subsumed under existing core or other privileges or requires additional education and training, experience and demonstrated competence and/or new staff competencies. Physicians desiring to utilize new technologies or perform new procedures may do so once the Medical Executive Committee has considered and approved the department's recommendation to create/not create new criteria for privileges and, where new criteria are established, has determined that the physician has demonstrated that he/she has the necessary qualifications. The Medical Executive Committee's determination is subject to ratification by the Banner Board.

5.9 ESTABLISHMENT OF PRIVILEGES FOR INTERDISCIPLINARY PROCEDURES

5.9-1 REQUEST FOR PRIVILEGES

As a result of emerging technology, practitioners in different specialties may be qualified by training, demonstrated competence and judgment to perform procedures traditionally under the jurisdiction of one department. In the event that a practitioner requests privileges to perform a procedure not currently within the jurisdiction of his or her department, the practitioner will notify the Chief of Staff in writing. The notice must contain basis for such practitioner's determination that he or she is qualified for the requested privileges, including proof of training and number of procedures performed.

5.9-2 DETERMINATION OF APPROPRIATENESS

The Chief of Staff, with the approval of the Medical Executive Committee, will establish an interdisciplinary Ad Hoc Committee or request the Professional Review Committee to evaluate the request. The chairman of the Committee shall be a disinterested party currently not performing these procedures. The Committee shall give the affected practitioner and other interested persons an opportunity for an interview. After receipt of the Committee's report, the Medical Executive Committee will recommend to the Board whether interdisciplinary privileges are appropriate and, if applicable, the criteria and process for granting such privileges.

5.10 SPECIAL CONDITIONS

5.10-1 ORAL SURGEONS, DENTISTS AND PODIATRISTS

Surgical procedures performed by oral surgeons, dentists and podiatrists are under the overall supervision of the chairman of the Department of Surgery. An oral surgeon or podiatrist who meets the requisite qualifications may be granted the privilege of performing a history and physical examination and assessing the medical risks of the proposed procedure to the patient but only in those instances where the patient has no known current unrelated medical problems. Where any medical problems exist, a physician member of the Medical Staff must perform a basic medical appraisal on such patient, must determine the risk and effect of any proposed surgical or special

procedure, and must be responsible for the care of any medical problem that may be present at admission or that may arise during hospitalization. When significant medical abnormality is present, the final decision whether to proceed must be agreed upon by the oral surgeon, dentist or podiatrist and the physician consultant. The chairman of the Department of Surgery will decide the issue in case of dispute. Where the patient is an inpatient, the oral surgeon, dentist or podiatrist must arrange for a physician member of the Medical Staff to be an attending physician.

5.11 TEMPORARY PRIVILEGES

5.11-1 CONDITIONS

Temporary privileges may be granted only in the circumstances and under the conditions described below, only to an appropriately licensed practitioner, only when the information available substantially supports a favorable determination regarding the requesting practitioner's qualifications, and only after the practitioner has satisfied the professional liability insurance requirement of these Bylaws. Special requirements of supervision and reporting may be imposed by the Chief of Staff or department chairman. Under all circumstances, the practitioner requesting temporary privileges must agree to abide by these Bylaws and the policies of the Medical Staff and Medical Center.

Temporary privileges may be granted to an applicant for an initial period not to exceed 60 days upon completion of CPOE/EMR training. One extension may be granted for an additional period not to exceed 60 days. Any such renewal shall be made by the department chairman when the information available continues to support a favorable determination regarding the practitioner's application for membership and privileges.

5.11-2 CIRCUMSTANCES

Upon the recommendation of the Chief of Staff, department chairman, and Credentials Committee chairman or their respective designees, the CEO or designee may grant temporary privileges in the following circumstances:

- (a) Pendency of Application: Temporary privileges may be granted to an applicant who has submitted a complete application that has been verified and raises no concerns, has been approved by the Credentials Committee and Department Chairman, and is awaiting review and approval of the Medical Executive Committee and the Board.

Under no circumstances may such privileges be granted or renewed if the application is still pending because the applicant has not responded in a satisfactory manner to a request for clarification of a matter or for additional information.

- (b) Pendency of Application of a Banner Practitioner: Temporary privileges may be granted to an applicant who is a member of another Banner Medical Staff and has submitted a complete application but only after verification that the practitioner is in good standing at the other Banner hospital/outpatient surgery center(s) and meets the requirements for requested privileges and review of favorable results of the National Practitioner Data Bank query. Under no circumstances may such privileges be continued if the application is still pending because the applicant has not responded in a satisfactory manner to a request for clarification of a matter or for additional information.
- (c) Care of Specific Patient: Temporary privileges may be granted to a practitioner for the care of a specific patient but only after receipt of a request for the specific privileges desired and confirmation of appropriate licensure, adequate professional liability insurance coverage and favorable results of the National Practitioner Data Bank query. Such temporary privileges may not be granted in more than (3) three instances in any 12 month period after which the practitioner must apply for staff

appointment, and are restricted to the care of specific patients for which they are granted.

- (d) Coverage of Services: Where a service is not adequately covered to meet patient care needs, temporary privileges may be granted to an applicant for staff membership upon receipt of application and verification of the following information: appropriate licensure, adequate professional liability insurance, DEA registration (if applicable), current clinical competency, education and training, and NPDB query responses. Privilege criteria for the requested privilege(s) must be met. Temporary privileges shall be granted under this provision only under exceptional circumstances and never solely for the sake of physician convenience. Temporary privileges will be considered on an individual basis for a period not to exceed 60 days upon completion of CPOE/EMR training. One extension may be granted for an additional period not to exceed 60 days.

5.11-3 **ADDITIONAL PROCEDURES**

Temporary privileges to obtain additional specific procedures approved to be performed at Banner Goldfield Medical Center and/or Banner Ironwood Medical Center may be granted by the Department chair, subject to ratification by the Medical Executive Committee and Board, but only after the member has applied for the privileges and has provided documentation of appropriate training and recent experience as required by approved criteria.

5.11-4 **TERMINATION**

The CEO, Chief of Staff, department chairman, or Credentials chairman may terminate any or all of a practitioner's temporary privileges on the discovery of any information or the occurrence of any event of a nature that raises a question about a practitioner's professional qualifications. In the event of such termination, the practitioner's patients then in the Medical Center will be assigned to another practitioner. The wishes of the patient will be considered, where feasible, in choosing a substitute practitioner.

5.11-5 **RIGHTS OF THE PRACTITIONER**

A practitioner is not entitled to the procedural rights afforded by these Bylaws because a request for temporary privileges is refused in whole or in part or because all or any portion of the temporary privileges are terminated, not renewed, restricted, suspended, or limited in any way. A physician who believes his or her temporary privileges were wrongly terminated may submit information to the Medical Executive Committee demonstrating why the termination was unwarranted. The Medical Executive Committee, in its sole discretion, shall decide whether to review the submission.

5.12 **DISASTER PRIVILEGES**

- 5.12-1 In the event of an officially declared emergency or disaster, any physician, dentist, nurse practitioner, or physician assistant may be granted temporary disaster privileges upon recommendation of the CEO, Chief Medical Officer, Chief of Staff or incident commander handling the disaster or their respective designee provided that the care, treatment, and services provided are within the scope of the individual's license. Before a volunteer practitioner is considered eligible to function as a volunteer licensed independent practitioner, the hospital obtains his or her valid government-issued photo identification (for example, a driver's license or passport) and at least one of the following:
- A current picture identification card from a health care organization that clearly identifies professional designation.
 - A current license to practice.

- Primary source verification of licensure.
- Identification indicating that the individual is a member of a Disaster Medical Assistance Team (DMAT), the Medical Reserve Corps (MRC), the Emergency System for Advance Registration of Volunteer Health Professionals (ESARVHP), or other recognized state or federal response hospital or group.
- Identification indicating that the individual has been granted authority by a government entity to provide patient care, treatment, or services in disaster circumstances.
- Confirmation by a licensed independent practitioner currently privileged by the hospital or a staff member with personal knowledge of the volunteer practitioner's ability to act as a licensed independent practitioner during a disaster.

Where the practitioner is not a member of an Arizona hospital's Medical Staff, a current Hospital employee or Medical Staff member must recommend the granting of such privileges. Such privileges expire within thirty (30) days or upon the termination of the disaster or completion of inpatient care, whichever occurs first, and may be terminated in accordance with Section 5.9-4. A practitioner is not entitled the procedural rights afforded by these Bylaws because a request for temporary privileges is refused or because such privileges are terminated or otherwise limited.

- 5.12-2 Primary source verification of licensure will begin as soon as the immediate situation is under control, and must be completed within 72 hours (or as soon as possible) from the time the volunteer begins working at the hospital. If not verified within 72 hours, the reason must be documented.
- 5.12-3 Oversight of the professional performance of volunteer practitioners who receive disaster privileges (e.g. direct observation, mentoring, clinical record review) will be the responsibility of the Chief of Staff, appropriate Department Chairman, or other designee.
- 5.12-4 The CEO or designee will decide within 72 hours whether continuation or renewal of the disaster privileges is indicated. This decision is based upon information regarding the professional practice of the volunteer. The CEO, CMO or Chief of Staff may terminate any or all of a practitioner's disaster privileges on the discovery of any information or the occurrence of any event of a nature that raises a question about a practitioner's professional qualifications. In the event of such termination, the practitioner's patients then in the Hospital will be assigned to another practitioner.
- 5.12-5 Volunteer practitioners functioning under disaster privileges will be identified as such by wearing an identification badge provided upon the granting of privileges.

ARTICLE 6: CORRECTIVE ACTION

6.1 CRITERIA FOR INITIATING CORRECTIVE ACTION

Corrective action may be initiated against a practitioner if it appears that the practitioner does not meet the standards required by these Bylaws or any applicable Medical Staff policies, or if the practitioner is or may be engaged in a course of conduct, either within or outside the Medical Center, that is detrimental to patient care or lower than the standards or aims of the Medical Staff.

6.2 DEFINITION OF INVESTIGATION

- (a) An Investigation is a targeted evaluation of the competence or conduct of a practitioner which is triggered by a determination by the Medical Executive Committee, a Department or a

standing peer review committee, that there is a substantial likelihood that the practitioner's competence or conduct fails to meet applicable standards of care or behavior.

- (b) Routine peer review activities and focused professional practice evaluation (FPPE) as part of initial appointment or privileging does not constitute investigation.
- (c) Once begun, an investigation does not conclude until the medical staff takes a final action or recommendation, or a decision is made to close the investigation. When closed, the practitioner is informed of the closure of the investigation.

6.3 PROCEDURES FOR INITIATING AN INVESTIGATION LEADING TO POSSIBLE CORRECTIVE ACTION

- (a) A request for an investigation and/or corrective action may be submitted to the Chief of Staff by any member of the Medical Staff, the CEO, or the Board. The request must be in writing and must be supported by reference to the specific activities or conduct forming the basis for the request.
- (b) The Professional Review Committee or subcommittee thereof ("Professional Review Committee") shall consider the request and determine if an investigation is warranted. The Professional Review Committee may use one or more "evaluation tools" described below to determine if an investigation is warranted or, where an investigation is found to be warranted, to determine whether corrective action is necessary. Evaluation tools include but are not limited to an interview with the practitioner, concurrent or retrospective chart review, concurrent observation and/or consultation requirements. A practitioner's refusal to cooperate in an evaluation constitutes grounds for automatic suspension pursuant to Section 6.6-10 of these Bylaws. The practitioner has the right to an interview if he/she believes the Professional Review Committee should reconsider the use of any such evaluation tool. However, the practitioner is not entitled to the procedural rights afforded by these Bylaws because of the use of such tools. The Medical Executive Committee will be kept informed of the status of such investigations.
- (c) Certain matters that may lead to corrective action are routinely considered by each Medical Staff department and/or the Professional Review Committee as a part of their ongoing quality and performance improvement, clinical, administrative, and educational functions. When, as a result of fulfilling these functions, information comes to the attention of the department or the Professional Review Committee, the Professional Review Committee shall conduct a review as set forth herein, and no request for an investigation and/or corrective action is required.

6.4 PROCEDURE FOR PROFESSIONAL REVIEW

- (a) Within 60 days of the determination by the Professional Review Committee that an investigation or corrective action may be warranted, the Professional Review Committee shall conclude an investigation and document its findings. If the findings warrant that corrective action be taken, the affected practitioner shall have an opportunity for an interview with the Professional Review Committee. This interview shall not constitute a hearing, shall be preliminary in nature, and none of the procedural rules provided in these Bylaws shall apply thereto, including the right to be accompanied by counsel. affected practitioner an opportunity for an interview. This interview shall not constitute a hearing, shall be preliminary in nature, and none of the procedural rules provided in these Bylaws shall apply thereto, including the right to be accompanied by counsel. An "Excluded Practitioner" is a practitioner whose name is listed on the then current "list of Excluded Individuals/Entities" maintained by the Office of Inspector General, Department of Health and Human Services or who has been barred from participation in any Medicare/State Program. A "Medicare/State Program" is any federal or state program, including Medicare, Medicaid, AHCCCS, Indian Health Service, or Tricare (formerly CHAMPUS) program.

Removal from call under this section does not preclude the imposition of other corrective action as a result of inappropriate transfers.

6.7 HEARING AND APPEAL RIGHTS

6.7-1 HEARINGS AND APPEALS

The hearing will be conducted in accordance with Fair Hearing Plan. The appeal will be conducted in accordance with the Board's Appellate Review Policy.

The above stated time periods may be modified upon the mutual agreement of the practitioner and the Chief of Staff.

6.7-6 SCHEDULING THE APPEAL

Upon receipt of a timely and proper request for appellate review, the General Counsel of Banner shall schedule the appellate review as soon as practicable. The General Counsel

will attempt to schedule the review at a date and time acceptable to the practitioner, representatives of the Medical Staff and members of the Appeals Subcommittee.

6.7-7 APPEAL PROCESS

The practitioner has the burden of demonstrating, by preponderance of the evidence, that the hearing was not in substantial compliance with the procedures required by the Medical Staff Bylaws, or applicable law, and created demonstrable prejudice; or the adverse determination or action was arbitrary, capricious, or not supported by substantial evidence based upon the Hearing Record. Thereafter, the Medical Executive Committee may present evidence in support of the reconsidered determination or action.

6.8 NONREVIEWABLE ACTION

Not every action entitles the practitioner to rights pursuant to the Fair Hearing Plan. Those types of corrective action giving rise to automatic suspension as set forth in Section 6.6 are not reviewable under the Fair Hearing Plan. In addition, the following occurrences are also nonreviewable under the Fair Hearing Plan:

Depending upon the nature of the action and the Committee or individual who took the action, the Medical Executive Committee, the Professional Review Committee or the CEO shall consider the request and decide, in its/his/her sole discretion, whether to review the submission and whether to take or recommend any action.
