

Getting Started with eVisit on Your iPhone

You've set up your video visit with your provider and now it's time to access Banner Telehealth online. Follow the instructions below to access Banner eVisit from your iPhone or Apple device.

1.

Launch the App Store from the home screen, and search "eVisit Telehealth".

Download the eVisit Telehealth app by tapping "Get".

2.

Launch the eVisit Telehealth app from the home screen.

You will be asked to create a username and password, along with some other important information about yourself. Tap “Register” to proceed.

4.

Optional: Add a dependent (you can do this later at any time)

5.

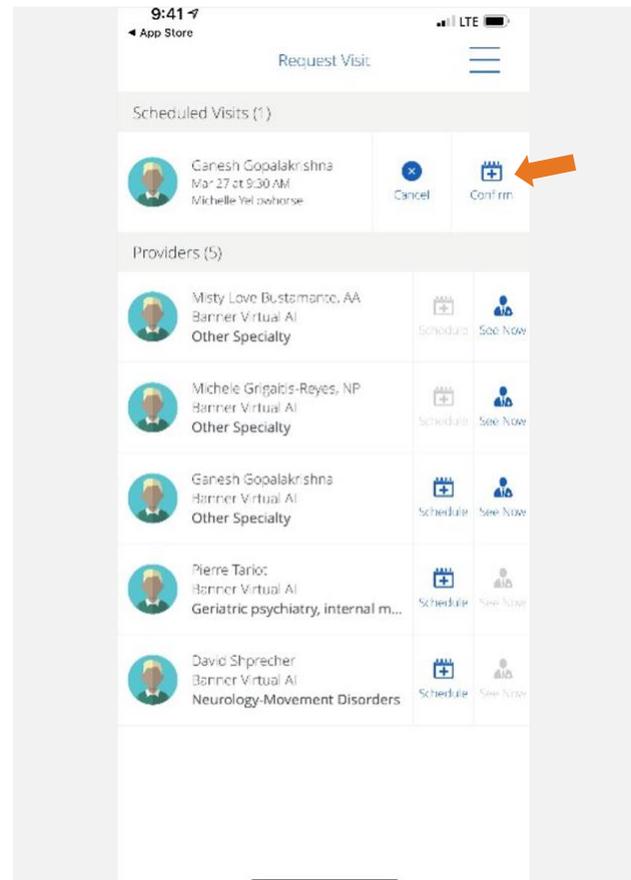

Your account is established. Tap "Continue".

6.

Here, you will see your list of scheduled visits, along with a list of available providers.

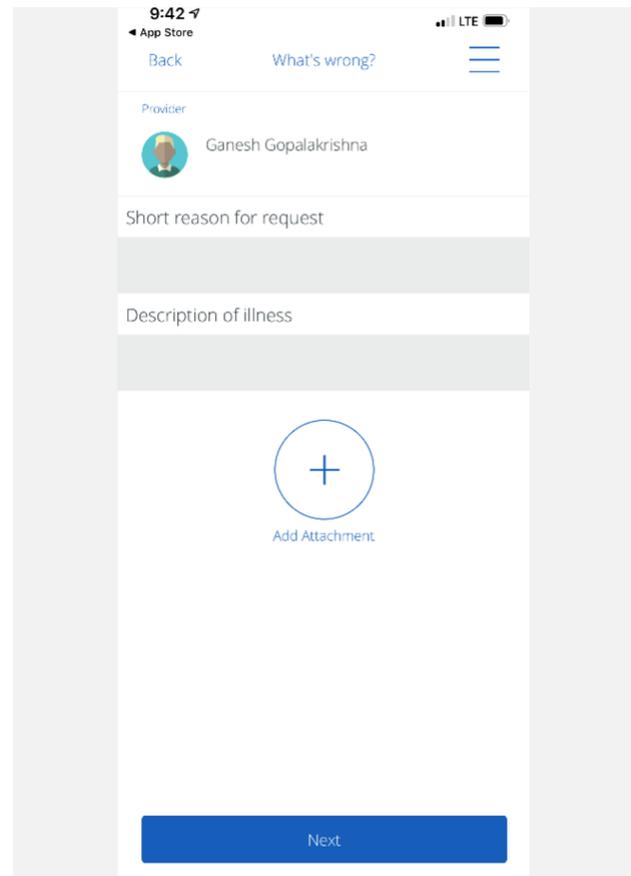

Tap "Confirm" to proceed with confirming your visit.

7.

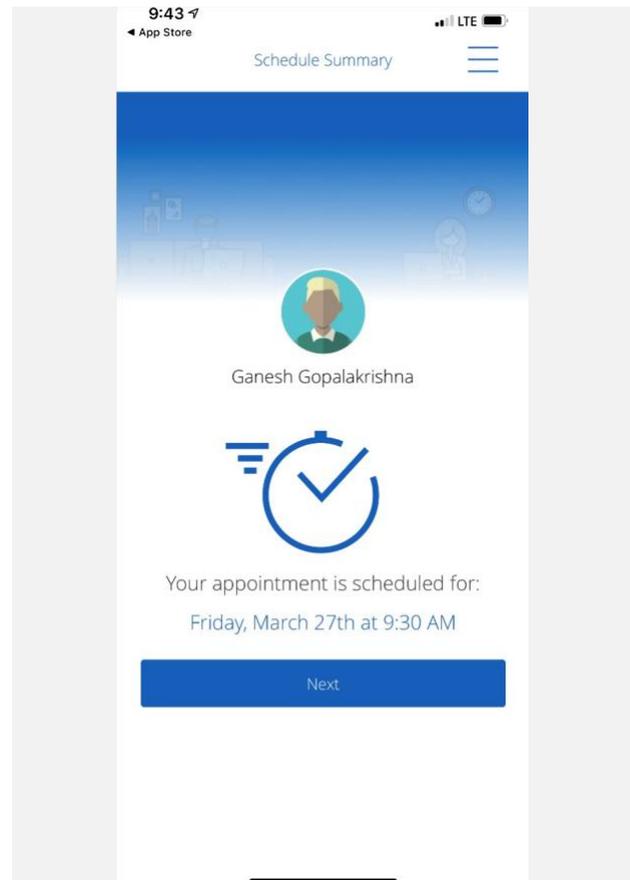

Enter a reason for your visit, and a description of your illness, then tap "Next".

On the following screen, you will be asked to acknowledge the terms of submitting your information. Tap the checkbox, then tap "Confirm & Request Visit".

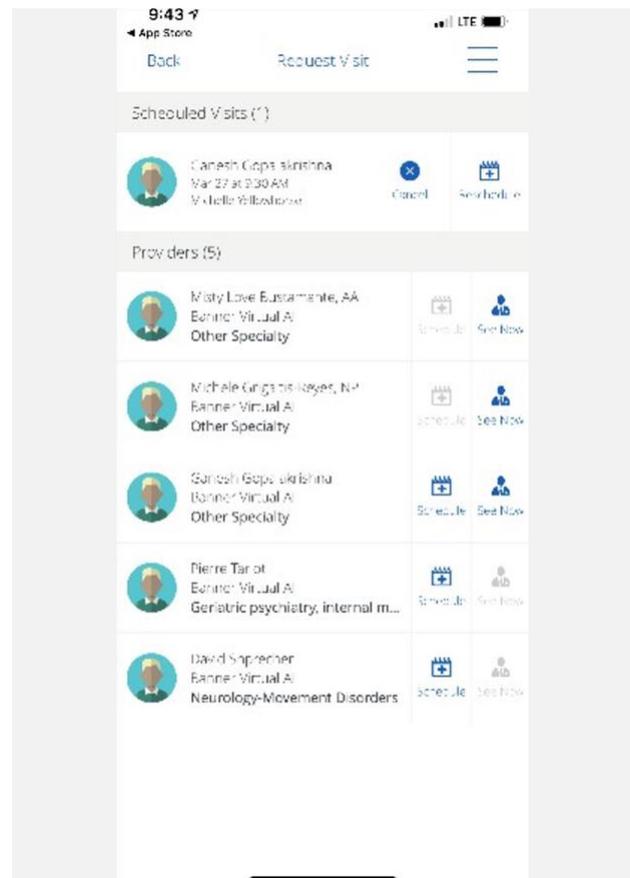

8.

Your visit is now confirmed.

9.

Here, you have the option reschedule or cancel your visit.

10.

You will receive a text message notification confirming the details of your visit.
