Medicare Part D Prescription Drugs

As shown below, there are "drug payment stages" for your Medicare Part D prescription drug coverage under Banner Medicare Advantage Prime. How much you pay for a drug depends on which of these stages you are in at the time you get a prescription filled or refilled. You may get drugs from an out-of-network pharmacy at the same cost as an in-network pharmacy. Please call us or access our *Evidence of Coverage* online at *www.BannerHealth.com/MA*.

Prescription Drug Stages	
Out-of-Pocket Threshold	**$2,100**
Prescription Drug Deductible	There is no deductible for drugs in Tier 1 and Tier 2. Coverage for drugs on these tiers begin in the Initial Coverage Stage. There is a **$440** deductible for drugs in Tier 3, Tier 4, Tier 5. You pay the full cost for your drugs in these tiers until you reach the deductible amount. When the deductible amount has been met, you will move to the Initial Coverage Stage.
Initial Coverage Limit	During the Initial Coverage Stage, the plan pays its share of the cost of your drugs, and you pay your share of the cost until your total yearly out-of-pocket drug costs reach **$2,100**. Total yearly out-of-pocket drug costs are the total copayment or coinsurance costs paid by you. You may get your drugs at network retail pharmacies and mail order pharmacies.
Catastrophic Coverage	After your yearly out-of-pocket drug costs *(including drugs purchased through your retail pharmacy and through mail order)* reach **$2,100**, the plan pays the full cost for your covered Part D drugs. You pay nothing.

Generally, we cover drugs filled at an out-of-network pharmacy only when you are not able to use a network pharmacy. Prescriptions filled at an out-of-network pharmacy are covered at the same cost sharing as an in-network pharmacy. For more information on your prescription drug benefit, please call us, or access the *Evidence of Coverage* online at *www.BannerHealth.com/MA*.
