## Which Doctors, Hospitals, and Pharmacies Can I Use?

Banner Plus has a network of doctors, hospitals, pharmacies, and other providers. If you use the providers that are not in our network, your costs may be higher for these services.

You must generally use network pharmacies to fill your prescriptions for covered Part D drugs.

You can see our plan's provider directory and pharmacy directory at our website: [www.BannerMA.com](http://www.BannerMA.com). Or, call us and we will send you a copy of the provider directory and pharmacy directory.

## What Do We Cover?

Like all Medicare health plans, we cover everything that Original Medicare covers – however, we cover even more.

- Our plan members get all of the benefits covered by Original Medicare
- Our plan members also get more than what is covered by Original Medicare
- Some of the extra benefits are outlined in this booklet

We cover Part D drugs. In addition, we cover Part B drugs such as chemotherapy and some drugs administered by your provider.

- You can see the complete plan formulary (list of Part D prescription drugs) and any restrictions on our website: [www.BannerMA.com](http://www.BannerMA.com).
- Or, call us and we will send you a copy of the formulary

### Prescription Drug Benefits

You may get drugs from an out-of-network pharmacy at the same cost as an in-network pharmacy. Please call us or access our Evidence of Coverage online. Every drug on the plan's Drug List is in one of 6 cost-sharing tiers. In general, the higher the cost-sharing tier number, the higher your cost for the drug:

**Tier 1** – Preferred Generic (Lowest Cost-Sharing Tier)

**Tier 2** – Generic

**Tier 3** – Preferred Brand

**Tier 4** – Non-Preferred Brand

**Tier 5** – Specialty Drugs (Highest Cost-Sharing Tier)

**Tier 6** – Select Care Drugs (Certain \$0 copayment drugs)

#### 1. Deductible Stage

You begin in this stage when you fill your first prescription of the year. During the Deductible Stage, you pay all costs for your Part D prescription drugs until you meet the plan deductible.

|                                 | <b>Maricopa   Pinal</b> | <b>Pima</b> |
|---------------------------------|-------------------------|-------------|
| <b>Annual Part D Deductible</b> | \$150                   | \$200       |

Once you meet the deductible, you will move to the Initial Coverage Stage.

#### 2. Initial Coverage Stage

During the Initial Coverage Stage, the plan pays its share of the cost of your drugs and you pay your share of the cost. Your share of the cost of a covered drug will be either a copayment or coinsurance.

- **"Copayment"** means that you pay a fixed amount each time you fill a prescription.
- **"Coinsurance"** means that you pay a percent of the total cost of the drug each time you fill a prescription.

The chart on the next page shows your share of the cost when you get a one-month supply of a covered Part D prescription drug:

| Tier   | Standard retail cost sharing | Long-term care (LTC) cost sharing | Out-of-network cost sharing |

You stay in this stage until your year-to-date “total drug costs” (your payments plus any Part D plan’s payments) total \$4,130. When you reach a total drug cost limit of \$4,130, you leave the Initial Coverage Stage and move on to the Coverage Gap Stage.

### 3. Coverage Gap Stage

When you are in the Coverage Gap Stage, the Medicare Coverage Gap Discount Program provides manufacturer discounts on brand name drugs. You pay 25% of the negotiated price and a portion of the dispensing fee for brand name drugs. Both the amount you pay and the amount discounted by the manufacturer count toward your out-of-pocket costs as if you had paid them and move you through the coverage gap.

You also receive some coverage for certain drugs. You pay no more than \$2.00 for a 1-month supply of preferred generic drugs (tier 1) and \$0 for Select Care Drugs (tier 6), and the plan pays the rest. The amount paid by the plan does not count toward your out-of-pocket costs. Only the amount you pay counts and moves you through the coverage gap.

You continue paying the discounted price for brand name drugs, preferred generic and select care drugs and no more than 25% of the costs of generic drugs until your yearly out-of-pocket payments reach a maximum amount that Medicare has set. In 2021, that amount is \$6,550.

Medicare has rules about what counts and what does *not* count as your out-of-pocket costs. When you reach an out-of-pocket limit of \$6,550, you leave the Coverage Gap Stage and move on to the Catastrophic Coverage Stage.

### 4. Catastrophic Coverage Stage

You qualify for the Catastrophic Coverage Stage when your out-of-pocket costs have reached the \$6,550 limit for the calendar year. Once you are in the Catastrophic Coverage Stage, you will stay in this payment stage until the end of the calendar year.

During this stage, the plan will pay most of the cost for your drugs.

Your share of the cost for a covered drug will be either coinsurance or a copayment, whichever is the *larger* amount:

- – *either* – Coinsurance of 5% of the cost of the drug
- – *or* – \$3.70 for a generic drug or a drug that is treated like a generic and \$9.20 for all other drugs.
